

# LEITH JUNCTION

## Leith Junction – Achieving the aims

The proposed scheme demonstrates that the existing building can be altered to provide a variety of spaces for cultural uses - The Thomas Morton Hall, Theatre, and two studio spaces, plus supporting accommodation - to create a vibrant home for the arts in Leith, and a building both providing and housing **INCREDIBLE PERFORMANCE**.

Importantly we believe this can be achieved without compromising the architectural and historic significance of this grouping of buildings. Indeed we believe that **INCREDIBLE PERFORMANCE** will once again give the building a raison d'être, a profile which it has lacked for decades, and critically, access and use by all sectors of the population.....something which has been denied for many years.
